

Lumen x Meter

Network Connectivity that Works

What are Lumen x Meter?

Lumen x Meter simplify enterprise networking by combining integrated network platform and backbone automation to deliver resilient, scalable connectivity that is designed to accelerate deployment and reduce IT complexity.

Empowering Businesses with Next-Gen Connectivity and Intelligent Infrastructure

Lumen x Meter deliver integrated connectivity paired with intelligent orchestration, designed to give enterprises increased speed, enhanced scalability, and full operational visibility.

What Sets Lumen x Meter Apart:

The network

LAN to cloud, delivered as a service. No vendor sprawl, no hardware headaches.

The infrastructure

400G backbone and automation enable real-time telemetry, predictive analytics, and future scalability.

The deployment

Fast installs, automatic provisioning, and lifecycle refresh help eliminate delays and reduce IT burden.

The experience

One dashboard, one support model simplifying operations across locations.

Turn Connectivity into a Competitive Advantage

- **Deploy in Days, Not Months:** Zero touch provisioning and automated design enable your sites go live fast, so you can focus on growth, not delays.
- **One Dashboard. Total Control:** From LAN to cloud, manage services in a unified platform to monitor, and one point of contact for proactive support.
- **Scale Without Limits:** Combine Lumen’s ultra-low-loss fiber backbone with Meter’s integrated network for resilient high-capacity connectivity that can grow with your organization.

Why It Matters:

- **Intelligent Network Transformation:** Eliminate CapEx headaches with a subscription model that delivers agility and performance.
- **Multi-Site Expansion Made Simple:** Open new locations without vendor sprawl or complexity. This enables uniform connectivity at each location.
- **Edge-to-Cloud Visibility:** Increased **latency reduction** across distributed sites, enabling real-time performance for critical applications. Now that’s fast!

Why Lumen x Meter?

Lumen and Meter are on a mission to deliver the **most reliable connectivity** and **delivery services** on the market. Together, we make enterprise networking **easy to purchase, simple to deploy,** and **seamless in driving measurable value.** The result is a network experience designed to **launch fast, connect each location** effortlessly, and **simplify operations** for IT teams.
