1. The purpose of this modification is to:
  - Make changes to the wording in Section B.1.2.12 and Table B.1.2.12.2;
  - Make changes to Sections B.2.6.4, B.2.6.5 and add CLIN WL01002 Domestic to Non-Domestic Mobile SMS Catalog Item to Table 2.6.5.3, and
  - Change the Contracting Officer in Section G.
2. The contract is modified as follows:

**TABLE OF CONTENTS:** Section pages renumbered.

**SECTION B CHANGES:**

A. Section B.1.2.12 is changed to read as follows.

**B.1.2.12 CLIN Bundling**

Agencies may desire to combine multiple contract CLINs and/or ICB CLINs into a single TUC. For example, an agency may wish to bundle a VPNS Port CLIN, MNS CLIN, and SRE into one combined CLIN. In these instances, the contractor shall provide items that have been combined for a specific TO in Table B.1.2.12.1 or Table B.1.2.12.2, to facilitate the collection of the components necessary for an accurate inventory. A TUC defined in Table B.1.2.12.1 or Table B.1.2.12.2 shall be priced using the TUC price table of the transport service that is used in that TUC and shall not be priced using General TUC Prices Table B.4.1.14.1. If no transport service is included in the TUC, then the TUC shall be priced using the TUC price table of the predominant service for which the TUC is defined.

B. Table B.1.2.12.2 is changed to read as follows ((Note the change in the table name):

**B.1.2.12.2 TUC Regional CLIN Component Table**

CLIN*	Case Number	Task Order Number	Region* *	NSC	Country/ Jurisdiction ID	PHub ID***	Component CLIN	Component CLIN Case Number****	Component SRE Pricing Element****	Component CLIN Quantity	Start Date	Stop Date

\* From the appropriate TUCs of the basic transport service for the combined CLIN set (e.g., VPNS)

\*\* An agency-defined label used to group locations together to share common pricing

\*\*\* Used for pricing domestic fixed-price Access Arrangements, otherwise null

\*\*\*\* Where applicable, otherwise "-1"

Table B.1.2.12.2 shall be used when the TUC is defined for a region rather than a single location. Its use shall be limited to situations where multiple NSCs and/or country/jurisdictions are grouped together into an agency-defined region that uses the same flat-rate pricing for all locations mapped to the region in the agency TO. Due to this regional pricing strategy, the sum of the component CLINs specified in Table B.1.2.12.2 is not expected to correlate with the price of the TUC case being defined, nor are the component CLINs required to be shown on the billing invoice. In Table B.1.2.12.2, the component CLIN billing frequency is permitted to differ from the billing frequency of the TUC being defined. For each CLIN+Case Number+Task Order Number+Region+NSC, one row shall be added for each component CLIN that contributes to the combined services provided at that NSC.

Table B.1.2.12.2 shall be used for informational purposes only to track the associated sites and CLINs comprising the regional TUC for active orders and is not subject to the CLIN bundling requirements of Section J.2.10.1.1.2.2, item 3.

For TUC cases defined in Table B.1.2.12.2, the NSC and country/jurisdiction columns of Table B.1.2.14.1 shall be populated with “-1” so that B.1.2.14.1 only records the case description and charging unit ID.

C. Section B.2.6.4 is changed to read as follows:

### **B.2.6.4 Pricing Catalog Requirements**

For Domestic to Non-Domestic and International Roaming services offered via a catalog, the contractor shall develop and maintain an online catalog of offerings and pricing in accordance with B.1.3.

The MWS catalogs provided by the contractor shall, at a minimum, contain the data elements defined in the tables below. For Domestic to Non-Domestic, this information includes the Country or Jurisdiction ID being called and the termination method (when there is a pricing difference between wireless and wireline termination). For International Mobile Roaming, it includes the Country or Jurisdiction ID from which a communication originated and the relevant number of minutes/texts/MBs. Other information may be provided by the contractor at its option.

Catalog prices for Domestic to Non-Domestic and for International Roaming shall be based on a discount from the Official List Price (OLP). The Class Discount ID determines the discount to be applied to the OLP. The contractor shall identify the trade name(s) for the OLP.

D. Section B.2.6.5 is changed to read as follows (Note the change in the section name):

### **B.2.6.5 Domestic to Non-Domestic Mobile**

The Domestic to Non-Domestic Mobile Catalog pricing in Table B.2.6.5.1 shall be based on a discount from the contractor’s official supplier’s best list price. Discount classes shall be specified in Table B.2.6.5.2. Charging mechanisms are provided in Table B.2.6.5.3. Catalog items using CLIN WL01001 shall be priced per minute.

E. The word ‘calling’ is removed from the name in Tables B.2.6.5.1 and B.2.6.5.2.

F. Table B.2.6.5.3 is changed to add CLIN WL01002 (Note the change in the table name):

### **B.2.6.5.3 Domestic to Non-Domestic Mobile Instruction Table**

<b>CLIN</b>	<b>Frequency</b>	<b>Description</b>	<b>Charging Unit</b>	<b>Notes</b>
WL01001	Usage	Domestic to Non-Domestic Mobile Calling Catalog Item	Minute	ICB
WL01002	Usage	Domestic to Non-Domestic Mobile SMS Catalog Item	Message	ICB

G. The Contracting Officer in Section G.2.2.2.1 is changed to:

Ms. Andrea L. Lane  
Phone: 703-306-6825  
Cell: 703-407-8872  
Email: andrea.lane@gsa.gov

3. The estimated dollar value of the contract remains unchanged.

4. Except as provided herein, all prices, terms and conditions of the document referenced in Item 10A remain unchanged and in full force and effect.
