LUMEN FINANCIAL CONNECT SERVICE SCHEDULE

1. General. "Lumen" means CenturyLink Communications, LLC d/b/a Lumen Technologies Group, and its affiliates that provide Services under this Service Schedule. The Service is governed by the Master Service Agreement or other agreement between Lumen and Customer, or, if none, Lumen's standard Master Service Agreement located at https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html (the "Agreement"). Lumen Financial Connect ("Service") is provided under the terms of the Agreement, this Service Schedule, and any signed quotes or Orders between the applicable Lumen entity and Customer. If there is a conflict, the order of control is this Service Schedule, the Agreement, and any Lumen-accepted Order. Capitalized terms not defined herein are defined in the Agreement.

1.1 Additional General Terms. Service charges are exclusive of taxes and presented without reduction for any Withholding Tax, all of which are the responsibility of the Customer. "Withholding Tax" means any amount or account of tax on sources of income which a payor is obliged to deduct from payments due to a recipient and account for or to any tax authority. In the event that any payment to be made to Lumen hereunder should be subject to reduction by reason of a Withholding Tax, Customer agrees to pay Lumen such amounts as would have been necessary so that the aggregate net amount received by Lumen after application of a Withholding Tax is the same amount as would have been received by Lumen if there had been no requirement to deduct or withhold such tax. For Services provided outside the United States, Customer or its local affiliate may be required to enter into a separate local country addendum/agreement (as approved by local authorities) ("LCA") with the respective Lumen affiliate that provides the local Service(s). Such Lumen affiliate will invoice Customer or its local affiliate for the respective local Service(s).

2. Service Description. Service is a network service that allows Customer to obtain market data feeds from stock exchanges and other financial data providers ("Exchanges") by using a Lumen Financial Connect Port ("Port") to connect with a Customer site or data center environment. The market data feeds include financial and trading information transmitted by the Exchanges. Service is dependent upon the availability of the market data feeds from the Exchanges. Lumen is authorized to interrupt or terminate the Service, without liability or further obligation to Customer, if expressly instructed to do so by an Exchange. Lumen does not have any liability to Customer if the Exchange disrupts or terminates a market data feed to Customer. A Port includes Exchange Connectivity or may also include optional Private Network Connectivity. Features and options are described below and in the Service Guide. "Service Guide" (or "SG") means the technical feature/functionality descriptions, and any related rights and restrictions for certain Services, available at https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html which Lumen may modify from time to time, effective upon posting.

2.1 Exchange Connectivity. Exchange Connectivity ("EC") provides electronic access to market data generated by the Exchange. Customer subscribes to a particular Exchange and can choose data available from that Exchange.

2.2 Pricing Methodology. Ports are only available with Flat or Tiered pricing methodologies.

(a) Flat Rate. The Flat Rate pricing methodology bills Customer a specified MRC for a given Port speed regardless of Customer's actual bandwidth utilization.

(b) Tiered. The Tiered pricing methodology caps Customer's bandwidth at the tier specified on an Order and bills the Customer a fixed MRC based on that bandwidth tier regardless of Customer's actual bandwidth utilization. No more than once per month, Customer may change its specific bandwidth tier (e.g., 2 Mbps to10 Mbps) within the applicable Port classification (e.g., Ethernet, Fast Ethernet). Customer may not change its bandwidth from one Port classification to another.

2.3 SLA. Ports are subject to the Lumen Financial Connect SLA located at https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html and is subject to change.

2.4 Lumen may pass through to Customer new fees and fee changes applicable to the Service that are imposed by the Exchanges. Upon Customer's request Lumen will provide the then-current pass through fees imposed by the Exchanges. Due to the consistently increasing levels of market information provided in connection with the Service, Lumen may, upon as much prior notice as practical, pass through to Customer increased bandwidth requirements applicable to the Service that are imposed by the Exchanges or required to accommodate increased data output from the Exchanges. Inadequate bandwidth can result in severe delays, loss of data and dropped connections, which may be further compounded by a re-connect and replay of the data. Lumen's ability to provide the Service and the applicability of any SLA are conditioned upon Customer maintaining bandwidth at the required level. Lumen may, without liability to Customer, suspend transmission of a Service at any time following notice of the same and until Customer implements connectivity at the prescribed bandwidth.

2.5 Lumen may provide information about Customer's Service to the Exchange to satisfy Lumen's reporting obligations to such Exchange. Such information may include, without limitation, Customer name and address, market data feed locations, individual location contact information, level of service, transmission protocol, terminal/display information, installation/termination dates, IP addressing, Exchange products delivered by the requesting Exchange and technical diagrams as they relate to the deployment of the specific Exchange's market data feed. To align with Exchange reporting obligations Lumen will complete scheduled and random audits of customer market data. Customer acknowledges and agrees that Lumen will be authorized to, without liability or further obligation to Customer, interrupt or terminate the Service if unauthorized market data is identified during an Exchange audit. Customer will be notified of any unauthorized market data and be given 48 hours to provide documentation showing that the market data has previously been authorized by the Exchange. After 48 hours Lumen will remove the market data identified until such a time that the Exchange has provided authorization.

3. Customer Responsibilities.

3.1 Charges. All invoices will be issued to Customer and paid in the currency specified in the Order. Customer will pay non-recurring charges ("NRC") and monthly recurring charges ("MRC") as set forth in the applicable Order.

3.2 Service Term, Termination. Ports must have at least one instance of EC at any given time during the Service Term (as identified in the applicable Order). EC instances can be added and removed without penalty at any time during the Service Term without restarting the Service Term as long as at least one instance is provisioned. If all instances of EC are removed from the Port early termination charges will apply as set forth in the Agreement.

3.3 Customer must execute the appropriate agreements and forms directly with the Exchanges to access authorized market data feeds. Additional information about this approval process is referenced in Lumen's Exchange Approval Process document which is available upon request. Exchanges may have particular configuration, security, operational, connectivity and use guidelines and testing protocols for their market data feeds and Service is provided subject to Customer's compliance with such guidelines and protocols.

3.4 Customer must use all commercially reasonable efforts to prevent any unauthorized access to or use of the Exchange's content and ensure that Customer does not upload or input any corrupted or malicious data to the Exchange's system. Customer must notify Lumen and the Exchange immediately upon becoming aware of any such unauthorized access or use or the introduction of any corrupted or malicious data to the Exchange's system.

3.4 The Exchange may direct Customer to terminate any external transmission or distribution of data feed content for any reason or no reason, in which event, upon notice from Lumen or the Exchange, Customer must cease retransmitting market data as soon as practicable. An Exchange, in its sole discretion, may choose to discontinue the transmission of any or all market data or to transmit market data in a different form. Lumen is authorized to interrupt or terminate the Service, without liability or further obligation to Customer, if expressly instructed to do so by an Exchange. Lumen does not have any liability to Customer if the Exchange disrupts or terminates a market data feed to Customer.

3.5 All trademarks and logos used by an Exchange remain the property of their respective owners and may not be used without Customer obtaining prior written permission of the owner of such marks or logos. Customer agrees that: (a) the Exchanges have exclusive property rights in and to the market data, (b) the market data constitutes valuable proprietary and confidential information of the Exchanges and (c) but for this Agreement, Customer would not have any rights with respect to, or rights to access or receive, any market data.

3.6 Customer must remain current with any fees assessed by the relevant Exchange for the use of its market data. Customer's failure to pay such fees could result in termination of market data feeds by the Exchange. Lumen may terminate the Service because the Exchange has terminated Customer's corresponding market data feed service for nonpayment and Customer is liable for termination charges set forth in the Service Schedule.

3.7 Customer must give written notice to the relevant Exchange and Lumen of any change of name, nature, or place of business at which any market data is received.

3.8 Customer must reasonably cooperate in connection with any inquiry regarding Lumen's interaction with the Exchanges by the SEC, CFTC, EU-FSA, NASD and any applicable self-regulatory organization.

3.9 Customer represents that it is not and will not be engaged in the operation of any illegal business and will not use, or permit any person to use, the market data obtained, or any part thereof, for any illegal purpose. Customer will not instruct or permit any other party to take any actions that would reduce the effectiveness of the Service.

3.10 Customer must strictly comply with all applicable Exchange rules and restrictions on retransmitting, distributing, or disclosing any market data to any other party, or otherwise incorporating any market data into any other client proprietary product or feed unless such permission has been expressly granted by the relevant Exchange.

3.11 Customer will not re-transport any market data on any WAN, satellite, or to any subsidiary, affiliate or to any third party unless permission to do so has been expressly granted by the relevant Exchange.

3.12 Neither the Exchanges nor Lumen will be liable in any way for (a) any inaccuracy, error or delay in, or omission of, (i) any market data, information or message or (ii) the transmission or delivery of any such data, information or message, or (b) any loss or damage arising from or occasioned by (i) any such inaccuracy, error, delay or omission, (ii) non-performance or (iii) interruption in any such data, information or message. Customer agrees to defend Lumen for any liability to the Exchange that Lumen may incur under any agreement entered into for the benefit of Customer caused by the acts or omissions of Customer including any applicable settlement costs.

3.13 Resale Restriction. Notwithstanding anything to the contrary in the Agreement, Customer is prohibited from reselling any Service provided under this Service Schedule.

3.14 Business Contact Information. Customer will provide Lumen the names and business contact details ("Business Contact Information") for its employees who have purchasing or other responsibilities relevant to Lumen's delivery of international Service (each, a "Business Contact"). Customer authorizes Lumen, and its affiliates and subcontractors, to use and transfer Business Contact

Information to the United States to (a) provide the Service and (b) share information about Lumen products and services with Customer through the Business Contacts. Customer represents that the Business Contact Information is accurate and that each Business Contact has provided any required consent for these uses. Customer further represents that it collected, processed, and transferred the Business Contact Information in accordance with applicable law, including any required notices to the relevant data protection authority (an "Authority"). Customer will promptly notify Lumen of changes that affect Lumen's use of the Business Contact Information. Lumen will maintain appropriate technical and organizational security measures designed to protect Business Contact Information against loss, misuse, alteration, or unauthorized access or disclosure. Lumen will use Business Contact Information only for the purposes stated above. Lumen will designate a contact to respond to inquiries about its processing of Business Contact Information and will reasonably cooperate with Customer and any Authority on those inquiries.

4. Reserved.
