Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	█████	████████████████
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	█████	████████████████
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	████	████████████████
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	████	████████████

Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and explanations
(e) Redundant text links shall be provided for each active region of a server-side image map.	███████	██████████████ ███
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	███████	██████████████ ███
(g) Row and column headers shall be identified for data tables.	████	██████████████ ██████████████
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	████	█████████████ ██████████

Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template

| Criteria	Supporting Features	Remarks and explanations
(i) Frames shall be titled with text that facilitates frame identification and navigation	■	■
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	■	■
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	■	■

Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template		
Criteria	**Supporting Features**	**Remarks and explanations**
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	▃	██████████
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).	██████	██████████

Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template		
Criteria	**Supporting Features**	**Remarks and explanations**
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	█████	████████████ ████████████ █████
(o) A method shall be provided that permits users to skip repetitive navigation links.	███	████████████ ████████████ ████████ ████

Section 1194.22 Web-based Internet information and applications - Secure Managed Email Service (SMES) - Detail Voluntary Product Accessibility Template		
Criteria	**Supporting Features**	**Remarks and explanations**
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	■■■	■■■■

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

The relevant provisions of Subpart C, Functional Performance Criteria, paragraph 1194.31, shall apply to the services identified in paragraphs C.6.4 above. For these services, the offeror shall provide one of the following two capabilities:

1. Support for assistive technologies used by disabled individuals.		███████████████
2. At least one mode of operation and information retrieval that:		
a.	For blind users, does not require vision.	███████████████
b.	For vision impaired users, does not require visual acuity greater than 20/70.	███████████████
c.	For deaf users, does not require hearing.	██████████
d.	For hearing impaired users, does not require enhanced auditory capability.	██████████
e.	For users with no speech capability or with impaired speech, does not require user speech.	████████████
f.	For users without fine motor control or simultaneous action capability, does not require fine motor control or simultaneous action and is operable without limited reach and strength.	███████████████

The relevant provisions of Subpart D, Information, Documentation, and Support, paragraph **1194.41**, shall apply to the services identified in paragraphs C.6.4.1, above.

§ 1194.41 Information, documentation, and support.

(a) Product support documentation provided to end-users shall be made available in alternate formats upon request at no additional charge.

███
██████████████████████████████████████.

(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request at no additional charge.

███
███.

(c) Support services for products shall accommodate the communication needs of end-users with disabilities.
