

# Seamless, secure connectivity for modern networks

Lumen® Dedicated Internet Access + Secure Access Service Edge Bundle

A fast, reliable network is critical for propelling AI-driven strategies forward and staying competitive. At the same time, you need to keep costs under control and manage security risks that could cause reputational damage. Implementing a high-quality network with robust security controls also means addressing the challenges of complexity, where having multiple tools and different points of control can work against cost and security goals.

A bundle can help make those challenges easier to manage. Together, Lumen Dedicated Internet Access (DIA) and Secure Access Service Edge (SASE) provide high bandwidth internet connections and simplify management of cyber security tools, enabling organizations to maintain efficient and secure operations while continuing to innovate.

## How can this bundle help you achieve your goals?

Provide seamless connectivity for a distributed workforce.

Safeguard business continuity amid rising security threats and operational challenges.

Deliver operational efficiency from multiple cybersecurity tools to help improve cost management and ROI.

“We have been able to work together to grow our business, and Lumen has been there with technologies to help us do that. Over the years, things change, and to be able to lean on somebody who is there with you day in and day out is huge for both our business and our customers.”

– **Bob Bruckner**

Chief Information Officer at Ames Construction

## Common use cases

- Provide the necessary capacity for your organization to operate efficiently with bandwidth that scales with your business needs.
- Increase visibility and control with centralized network and security policy management.
- Minimize time and costs required to manage applications and next-gen digital experiences.

# A closer look at Lumen DIA + SASE Bundle

## Dedicated Internet Access

- Scale your business to reach global customers and vendors virtually anywhere with speeds up to 10 Gbps<sup>1</sup>.
- High-speed connectivity and resiliency with built-in security to help you expand your reach, increase user capacity and enhance digital services.

## Secure Access Service Edge

- Flexible, secure, and easy-to-manage architecture to address today's complex network and security requirements with simplicity, enhanced control, and visibility for business growth.
- SD-WAN supports secure, scalable, and cost-efficient deployment and management of hybrid networks.
- Next Generation Firewall (NGFW) provides software-defined, application-centric network control.
- Optional Zero Trust Network Access (ZTNA) supports work-from-anywhere security as a substitute for VPN.

## Available Add Ons

- Enterprise Wireless Access Service (EWAS)
- Broadband Internet Access (BIA)
- High Availability (HA) with a second SASE device

# Pricing

## Versa

Bandwidth	DIA	SASE Versa	CPE Model	Monthly Service Charge
50Mbps	\$350	\$240	FWA1012	\$590
100Mbps	\$415	\$240	FWA1012	\$655
500Mbps	\$605	\$268	L-1515B	\$873
1Gig	\$720	\$335	FWA5070-L	\$1,055
2Gig	\$1,225	\$575	FWA5070-L	\$1,800
3Gig	\$1,430	\$1,007	FWA5070-XL	\$2,437
4Gig	\$1,635	\$1,007	FWA5070-XL	\$2,642
5Gig	\$1,835	\$1,007	FWA5070-XL	\$2,842
10Gig	\$2,540	\$1,007	FWA5070-XL	\$3,547

Rates available to qualifying business customers purchasing new Lumen SASE and DIA services in one eligible continental U.S. on-net location and requires a 36-month term agreement. Listed rates represent the combined rate for the bundled service components. Customer will be invoiced for each service component separately. Rates include port, access and logical service for non-burstable DIA and SASE pro-managed service, single device and one each SD-WAN and security license. Rates exclude installation, optional add-ons, building extensions, construction charges, taxes and fees which are all additional charges. Early termination fees will apply to each service component as set forth in customer's agreement. Customer must remain in good standing and rate may terminate if customer changes their account in any manner including, but not limited to, their service location. Services not available everywhere. Lumen may change, cancel, or substitute offers and services, or vary them by service area at its sole discretion without notice. Credit approval and deposit may be required. Offer may not be combined with other offers. Additional restrictions, terms and conditions apply. Listed bandwidth varies due to conditions outside of network control, including customer location, equipment, access through a wireless connection, and is not guaranteed. Minimum 25 seats required for ZTNA add-on.

## Why a bundle?

- Simplified buying experience
- Complementary services combined

<sup>1</sup> Lumen also offers connectivity services with higher bandwidth options to meet your needs.

## Why Lumen?

Lumen is the trusted network for AI. Industry leaders trust the Lumen network infrastructure to build AI capacities. With a comprehensive portfolio, Lumen can help your business deliver high-quality connectivity, reduce costs and complexity, and enhance your security posture. Rely on the extensive and deeply peered Lumen global network, Black Lotus Labs' threat intelligence, and our team of experts to help deploy and manage the solution.
