## Lumen IPTS

Lumen is DISA's trusted partner in delivering secure, resilient network services that transport data, imagery, video, and voice traffic across critical missions.

- Lumen connects military users worldwide through an always-on infrastructure that supports high-capacity, end-to-end communications. This enables the Department of Defense to achieve rapid, seamless information flows across battlespace domains in the Asia Pacific and beyond.

As a global provider of critical infrastructure and telecommunications transport services, the Department of War Lumen strengthens the mission through multiple contract vehicles, including IPTS, ISPSS, DIPS, EIS GNS, and multiple Dark Fiber contracts. Our continuous investment in network infrastructure drives the expansion of DISA's capabilities, while global Ethernet migration and Innovation Labs tackle the DoD's most critical mission challenges. By combining advanced technology with unwavering reliability, Lumen helps ensure that defense operations remain connected, secure, and ready for the future.

"We're delivering the always-on network infrastructure enabling the U.S. Department of War to focus on its mission to enhance the stability of the Asia Pacific region, promote security cooperation with allies and partners, respond to emerging situations, deter aggression, and if necessary, fight to win."

– Daniel Lawn

## The Lumen platform supports defense agencies with:

### Network Solutions

- **Cloud Connect:** High-performance cloud networking to public and private clouds.
- **Dedicated Internet Access:** Enterprise-grade, dedicated internet for critical applications.
- **IP VPN:** Flexible global network connectivity with self-service features.
- **SD-WAN:** Automated platform for managing workloads across multiple connectivity types.
- **Wavelengths:** Custom-designed network offering up to 400 Gbps bandwidth for high availability.

### Edge Cloud Computing

- **Data Centers:** Give your business the infrastructure and security of a dedicated data center with minimal maintenance and upfront costs.
- **Network Storage:** Keep your data close to the action with distributed low-latency storage at the edge and predictable, pay-as-you-go pricing.

### Cybersecurity

- Black Lotus Labs
- DDoS Mitigation
- Managed Endpoint Detection Response
- Managed ZTNA with Zscaler
- Professional Security Services
- Secured Access Service Edge (SASE)
- Zero Trust for Public Sector

### Collaboration Capabilities

- DOD365 Integrated Phone System (DIPS)
- Next-Gen Voice
- Contact Center and UC&C Consulting
- Next-Gen 911
- Solutions for Contact Center
  - Genesys Cloud
  - Talkdesk
- Solutions for
  - Microsoft Teams
  - Webex
  - Zoom

Senior Director, DISA Accounts, Lumen

### Managed & Professional Services

- **Lumen Tailored Managed Network Services:** Drive your agency and IT transformation with flexible, end-to-end managed services for everything from app deployment to network provisioning.

## Why Lumen?

Lumen is a trusted partner to DISA and the Department of War, delivering secure, resilient network services that form the backbone of the DoDIN and enable rapid, seamless information flow across all domains. With extensive fiber infrastructure, edge compute capabilities, and advanced solutions like Zero Trust, managed security, and cloud access, Lumen supports critical missions through multiple contract vehicles, including PLS, IPS, DCTS-N, GNS, and Fiber. Our continuous investment in modernization, global Ethernet migration, and innovation enables defense operations to remain connected, protected, and ready for the future.
