Network Infrastructure Solutions for Asia-Pacific Operations

Lumen provides the network infrastructure backbone for the U.S. Indo-Pacific Command. Authorized by DISA under the IPTS contract, Lumen supplies the Defense Information Systems Network with essential transport and communications services that enable DoD missions in the 36-nation region.

Lumen IPTS

Lumen is DISA's trusted provider of secure, resilient network services that transport data, imagery, video and voice traffic. An always-on infrastructure supports high-capacity, end-to-end communications - allowing DoD to achieve rapid and seamless information flows across battlespace domains in the Asia Pacific.

Internet, Ethernet & Wavelengths Solutions

Powerful, Low-Latency Connectivity

High Availability & Reliability

Integrated Security Solutions

The Lumen platform supports defense agencies with:

- Adaptive networking
- Edge cloud computing
- Connected security
- Collaboration capabilities

“We’re delivering the always-on network infrastructure so the U.S. Department of Defense can focus on its mission to enhance the stability of the Asia Pacific region, promote security cooperation with allies and partners, respond to emerging situations, deter aggression, and if necessary, fight to win.”

Zain Ahmed, Lumen Sr. VP of Public Sector

Lumen is guided by our belief that humanity is at its best when technology advances the way we live and work. With approximately 400,000 route fiber miles and serving customers in over 60 countries, we deliver the fastest, most secure platform for applications and data to help businesses, government and communities deliver amazing experiences.
