

LUMEN INTERNET SERVICES SCHEDULE

1. General. “Lumen” means CenturyLink Communications, LLC d/b/a Lumen Technologies Group, and its affiliates that provide Services under this Service Schedule. The Service is governed by the Master Service Agreement or other agreement between Lumen and Customer, or, if none, Lumen’s standard Master Service Agreement located at <https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html> (the “Agreement”) and, if Internet On-Demand is ordered via Lumen Connect, the applicable digital terms. Lumen may subcontract all or part of the Service but remains responsible to Customer. Capitalized terms not defined in this Service Schedule have the meanings in the Agreement. If there is a conflict, the order of priority is: (1) this Service Schedule; (2) the Agreement; (3) the Service Guide; and (4) the Order(s). Services are subject to geographic and feature availability.

1.1 Additional General Terms. Service charges are exclusive of taxes and presented without reduction for any Withholding Tax, all of which are the responsibility of the Customer. “Withholding Tax” means any amount or account of tax on sources of income which a payor is obliged to deduct from payments due to a recipient and account for or to any tax authority. In the event that any payment to be made to Lumen under this Service Schedule should be subject to reduction by reason of a Withholding Tax, Customer agrees to pay Lumen such amounts as would have been necessary so that the aggregate net amount received by Lumen after application of a Withholding Tax is the same amount as would have been received by Lumen if there had been no requirement to deduct or withhold such tax. For Services provided outside the United States, Customer or its local affiliate may be required to enter into a separate local country addendum/agreement (as approved by local authorities) (“LCA”) with the respective Lumen affiliate that provides the local Service(s). Such Lumen affiliate will invoice Customer or its local affiliate for the respective local Service(s).

1.2 This Service Schedule applies when Customer orders Lumen Internet Services (which may also be called Dedicated Internet Access, Internet Services, High Speed IP, IP Transit Services, Dedicated Internet Extension, CenturyLink IQ Networking Internet Port (“Internet Port”) or Internet On-Demand (collectively, “Lumen Internet Services”).

2. Services.

2.1 Service Description. Lumen Internet Services are high-speed, symmetrical Internet services that provide access to the Lumen IP network and the global Internet (the “Service”). The Service is generally available via Ethernet connections from 10/100 Mbps to 400 Gbps ports. Features and options are described below and in the Service Guide. “Service Guide” (or “SG”) means the technical feature/functionality descriptions, and any related rights and restrictions for certain Services, available at: <https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html> which Lumen may modify from time to time, effective upon posting.

- a. **IP Addresses.** IP Address space with proper justification.
- b. **Primary DNS / Secondary DNS.** Primary or Secondary DNS as requested.
- c. **Static routing / BGP peering.** Static routing or BGP peering options available.
- d. **On-line bandwidth utilization reports.** On-line bandwidth utilization reports available through the customer portal.
- e. Certain security features further described in the Service Guide.

2.2 Billing Types.

Flat Rate. Service with flat-rate, fixed rate, or tiered billing provides a set amount of bandwidth at a flat-rate MRC. No usage element applies. Customer will not be permitted to exceed the contracted bandwidth level.

Commit Plus Burst. For Service provided with burstable bandwidth, the MRC is based on Committed Data Rate (“CDR”)/Committed Information Rate (“CIR”). The CDR/CIR is the minimum Internet bandwidth that will be billed to Customer each month regardless of actual usage. Commit Plus Burst usage is any usage in excess of CDR/CIR. Commit Plus Burst usage charges will apply on a per Mbps basis at the rate stated in the Order. Commit Plus Burst usage charges will be billed on a 95th percentile basis. Usage levels are sampled every five minutes, for the previous 5 minute period, on both inbound and outbound traffic. At the end of the bill cycle, the highest 5% of the traffic samples for each inbound and outbound will be discarded, and the higher of the resulting inbound and outbound values will be used to calculate any applicable usage. If available and identified in the applicable Order, a Peak Data Rate (“PDR”) or Peak Information Rate (“PIR”) may apply, which is the maximum available bandwidth.

Billing Arrangement. Commit Plus Burst Services may also be provided on an aggregated basis. For Billing Arrangement (or Aggregate Burstable Service, the bandwidth MRC (or Committed Monthly Usage Charge (“CMUC”), is based on the Committed Data Rate (“CDR”) (or the Aggregate Committed Data Rate (“ACDR”) or Aggregate Committed Information Rate (“ACIR”). The CDR/ACDR/ACIR is the minimum Internet bandwidth that will be charged to Customer each month regardless of actual usage. Burst Rate (or Aggregate Burstable Usage) is any usage in excess of CDR/ACDR/ACIR. Burst Rate/Aggregate Burstable Usage charges will apply on a per Mbps basis at the rate stated in the Order. Burst Rate/Aggregate Burstable Usage is calculated on a 95th percentile basis across all included ports. For Dedicated Internet Access, all usage in excess of the CMUC are calculated on 95th percentile basis across all included ports and charged at the rate stated in the Order.

2.3 On-Net and Off-Net Access. Access services provided entirely on the Lumen owned and operated network (“Network”) are “On-Net Access Services”. Additionally, Lumen may use third parties to reach Customer’s site from the Lumen Network (“Off-Net Access Services”). Local Access may be provisioned utilizing one of the following service technologies: special access, ethernet local access,

multi-tenant unit (MTU) access, or wavelength local access. In rare circumstances, Customers may experience bandwidth limitation on a Lumen Internet Services with a single data flow (a continuous sequence of packets from a source to a destination measured over a network link), although PDR could still be achieved over available bandwidth via additional data flows.

2.4 Converged Voice-Internet Service. Where Customer orders Internet Services bundled with Lumen Enterprise Voice SIP Based Services only, such charges will show on the invoice as Converged Voice-Internet Service. For clarification, the Converged Voice-Internet Service is treated as a single Service and if Customer wishes to unbundle or terminate a part of the Converged Voice-Internet Service, early termination liability may apply and Customer will be required to execute new orders for the desired stand-alone Service.

2.5 Lumen Arranged Third Party Procured Internet Services. For certain Service locations (including but not limited to where Lumen may lack relevant licenses to provide such service), Lumen may agree to a) arrange Internet Services using third party providers or b) procure Internet Services from third party providers on Customer's behalf ("Third Party Internet Service"). Examples of such locations include, but are not limited to, service locations in China (excluding Hong Kong), India, Indonesia, Malaysia, New Zealand, Philippines, Taiwan, Thailand, Vietnam, Latin America, Central America, Countries and Territories of the Caribbean, Mexico, Europe, Middle East and Africa. Service options vary on a country by country basis and may include access to the Internet via overbooked and/or non-overbooked connections, DSL technology, private leased circuits (fixed or wireless), and/or satellite. Specific service details (access type, e.g., downstream/upstream speed, customer premises equipment requirements, and number of IP addresses) also differ on a country by country basis. Border Gateway Protocol (BGP) routing capabilities may not be available for Third Party Internet Service. Customer understands and acknowledges that Third Party Internet Service will, if requested by Customer, be provided by third party provider(s) to Lumen and accordingly, is provided on an as-is basis. Notwithstanding the foregoing, Customer may report faults and/or outages in Third Party Internet Service to Lumen on a 24x7 basis and, in such circumstances, Lumen will contact the applicable third-party service provider with a view to restoring service as quickly as possible. Customer will reasonably cooperate with the requests of such providers of Third Party Internet Service to enable installation, maintenance, repair, and disconnection of Services. Commit Plus Burst and Billing Arrangement pricing methodologies, as well as on-line bandwidth utilization reports, are not available for Third Party Internet Service.

2.6 Intended Use and Third Party Peer Destined Traffic. High Speed IP (any port size) or Dedicated Internet Access (10G or larger) Service is intended to be used for a mixture of internet destinations and not for traffic overly weighted towards individual networks. If at any time, Lumen's provision of Service to Customer results in unbalanced traffic ratios between Lumen and any other third party peer network that would negatively impact any of Lumen's peering relationships or if more than 25% of total traffic is carried across Lumen's inter-continental backbone links or more than 25% of total traffic (excluding traffic terminating to AS3356 or AS209) is sent towards an individual egress network that would negatively affect Lumen's network operations, then Lumen will provide written notice to the Customer along with a 10 calendar day opportunity to cure such traffic imbalance ("Balance Cure Period") during which Lumen and Customer will cooperate to cure the traffic imbalance. Lumen will clearly identify to Customer the traffic imbalance volume and location(s) of imbalance. If the Customer fails to remedy the imbalance within the Balance Cure Period, then Lumen, in its sole discretion, will have the right to use technical means to restrict access from the affected Services. Notwithstanding the foregoing, if an emergency condition exists ("emergency condition" is considered to be traffic conditions which threaten a material and adverse impact on Lumen's network or its peers' networks), then Lumen may, in its' sole reasonable discretion, take appropriate action without the Customer's consent, which may include, but is not limited to, using technical means to restrict access from those Services; provided that in such event, Lumen will provide as much notice as is practicable under the particular emergency condition.

2.7 Service Levels. Lumen Internet Services are subject to the Lumen Service Level Agreement available at <https://www.lumen.com/en-us/about/legal/business-customer-terms-conditions.html>. If Lumen changes the Lumen Service Level Agreement and the change is material and detrimental, Customer may request and receive the last version of the Service Level Agreement in effect before the change.

3. Customer Responsibilities.

3.1 Charges. Customer will be billed non-recurring charges ("NRC") and monthly recurring charges ("MRC") for Service as set forth in an Order(s). NRC include applicable installation charges for local-access circuit, port connection, and bandwidth. MRC include local-access charges, port connection charges, and bandwidth charges. Other charges, including but not limited to usage-based charges, may apply as stated in the Order(s). The Services are available with Flat-Rate, Commit Plus Burst, or Billing Arrangement billing types. Construction charges apply if special construction is required to extend Service to the demarcation point. If Customer does not approve of the Construction charges after Lumen notifies Customer of the charges, the Service ordered will be deemed cancelled.

3.2 Additional Customer Responsibilities. Customer is solely responsible for all equipment and other facilities used in connection with the Service which are not provided by Lumen. All IP addresses, if any, assigned to Customer by Lumen will revert to Lumen upon termination of Service, and Customer will cease using such addresses as of the effective date of termination. Unless the parties otherwise agree in writing, Customer has sole responsibility for ordering, securing installation, and ensuring proper operation of any and all equipment required to enable Customer to receive the Service.

3.3 Resale Restriction. Notwithstanding anything to the contrary in the Agreement, Customer is prohibited from reselling any Internet Service or any ports provided under this Service Schedule as a stand-alone service to a third party without the express written consent of Lumen, provided, however that Customer may bundle any Internet Service or any ports provided pursuant to this Service Schedule with any other Lumen services (to the extent resale of those service is allowed) or the services of Customer and resell such bundled service to Customer's subscribers and its customers. The Parties agree that the preceding is not applicable to Converged Voice-Internet Service, and Customer is prohibited from reselling any Converged Voice-Internet Service unless the parties enter into an amendment signed by authorized representatives of both parties.

3.4 Business Contact Information. Customer will provide Lumen the names and business contact details (“Business Contact Information”) for its employees who have purchasing or other responsibilities relevant to Lumen’s delivery of international Service (each, a “Business Contact”). Customer authorizes Lumen, and its affiliates and subcontractors, to use and transfer Business Contact Information to the United States to (a) provide the Service and (b) share information about Lumen products and services with Customer through the Business Contacts. Customer represents that the Business Contact Information is accurate and that each Business Contact has provided any required consent for these uses. Customer further represents that it collected, processed, and transferred the Business Contact Information in accordance with applicable law, including any required notices to the relevant data protection authority (an “Authority”). Customer will promptly notify Lumen of changes that affect Lumen’s use of the Business Contact Information. Lumen will maintain appropriate technical and organizational security measures designed to protect Business Contact Information against loss, misuse, alteration, or unauthorized access or disclosure. Lumen will use Business Contact Information only for the purposes stated above. Lumen will designate a contact to respond to inquiries about its processing of Business Contact Information and will reasonably cooperate with Customer and any Authority on those inquiries.

4. Reserved.
