Lumen IP VPN On-Demand

Drive increased agility with a dynamic IP VPN network that scales to meet ever-changing business demands.

IP VPN On-Demand empowers your business to leverage private data connections in a highly flexible manner. Rapid provisioning of Lumen’s Network-as-a-Service products has revolutionized networking by enabling you to utilize your IP VPN connection within minutes of purchase. Further, your business’s ability to respond to change with the IP VPN On-Demand’s pay-per-use billing model. With rapid network delivery, scalable bandwidth, and pay-per-use billing, IP VPN On-Demand enables your business to become truly agile.

Benefits

Secure Connections
IP VPN On-Demand leverages Lumen’s highly stable IP VPN infrastructure to provide you with an innately secure network foundation that can be activated within minutes.

Operational Agility
Capitalize on emerging business opportunities with a scalable, pay-as-you-go network activated in minutes.

Visibility and Control
The NaaS Manager allows you to buy and manage your network remotely. IP VPN develops real-time network insights to help understand and respond to changes in network performance.

Features
- Pay-as-you-go billing model
- Bandwidth speeds up to 30G
- Activate and manage network services via self-service portal
- On-net connectivity to AWS, Azure, Google Cloud, Oracle, IBM and over 2,200 third-party data centers

Lumen® IP VPN On-Demand

Why Lumen?
Lumen connects the world. We are igniting business growth by connecting people, data, and applications – quickly, securely, and effortlessly. Everything we do at Lumen takes advantage of our network strength. From metro connectivity to long-haul data transport to our edge cloud, security, and managed service capabilities, we meet our customers’ needs today and as they build for tomorrow.
