

Edge-enabled predictive maintenance

Partnering with other technology leaders, we deliver customised solution stacks for your unique business needs.

	Offered directly by Lumen	Offered by Partners	Leading players
Services Managed services, SIs	Lumen IT Services, Lumen Professional Security Services	SIs	LUMEN Accenture, Cognizant, DXC Technology, IBM
SaaS Analytics/AI SW		Visualisation	Azure, Power BI, TIBICO Spotfire, Tableau
PaaS PaaS		Dev environment	Augury, AWS, Azure, Banner, Lookout, PTC
Multi-cloud management	Lumen Edge Orchestrator	Management service	LUMEN
IaaS System infrastructure (e.g., virtualisation)	Lumen Edge Gateway Lumen Edge VM Lumen Edge Private Cloud		LUMEN
Compute	Lumen Edge Bare Metal		LUMEN
Storage			LUMEN
Network equipment			LUMEN
Colocation			LUMEN
Edge end points Gateways	Lumen Edge Gateway		LUMEN
Edge devices		Industrial sensors	Banner, Keyence, Rockwell Automation
Connectivity Networking	Lumen SD-WAN	5G Connectivity	LUMEN
Security	Lumen Firewall, Lumen IP VPN		LUMEN

EXPLORE EDGE SOLUTIONS

Lumen Edge Solutions

Services

Lumen IT Services

Accelerate your innovations with next-generation IT solutions and trusted expertise.

www.lumen.com/en-uk/managed-it-services/strategy-systems-and-technology.html

Lumen Professional Security Services

Minimise threat management overload and shrink attack surfaces while maximising defense alertness.

www.lumen.com/en-uk/security/professional-security-services.html

PaaS

Lumen Edge Orchestrator

Organise and monitor your infrastructure, workloads and services across multi-edge environments.

www.lumen.com/en-uk/edge-computing/orchestrator.html

IaaS

Lumen Edge Gateway

Take advantage of an on-premises edge computing solution for WAN, security and IT workloads.

www.lumen.com/en-uk/edge-computing/edge-gateway.html

Lumen Edge Bare Metal

Optimise app performance with dedicated bare metal servers on edge nodes designed to deliver ≤ 5 ms of latency.

www.lumen.com/en-uk/edge-computing/bare-metal.html

Lumen Edge VM

Provision virtual machines and functions with next-gen agility at the edge.

www.lumen.com/en-uk/edge-computing/vm.html

Lumen Edge Private Cloud

Harness fully managed pre-built infrastructure for high-performance computing on our global fibre network.

www.lumen.com/en-uk/hybrid-it-cloud/private-cloud.html

Edge end points

Lumen Edge Gateway

Take advantage of an on-premises edge computing solution for WAN, security and IT workloads.

www.lumen.com/en-uk/edge-computing/edge-gateway.html

Connectivity

Lumen SD-WAN

Secure and coordinate workloads on a single, automated platform with centralised visibility and control.

www.lumen.com/en-uk/networking/sd-wan.html

Lumen Dynamic Connections

Stay ahead of evolving business demands with real-time network provisioning for next-gen IT agility.

<https://www.lumen.com/en-uk/hybrid-it-cloud/dynamic-connections.html>

Security

Lumen IP VPN

Connect your locations globally to a flexible network with the capacity and self-service features to respond fast.

www.lumen.com/en-uk/networking/mpls-ipvpn.html

Lumen Managed Firewall Service

Secure and defend your infrastructure by protecting the network perimeter from external threats.

www.lumen.com/en-uk/security/managed-firewalls.html
