

Lumen & ADTRAN

Enhance business capabilities and maximize budgets.

Lumen is a global network provider that delivers end-to-end solutions for your company's voice and data networking needs. We provide unified communications, security, data center, cloud, optical networking, telepresence and wireless services. We also collaborate with leading technology providers in both hardware and services to help ensure your business communications needs are met.

For state-of-the-art secure networking capabilities, we work with ADTRAN as an Elite Partner and Operate Specialist to provide cost effective, resilient networking solutions.

Complete solutions

Our design, installation and maintenance services are available to solve your business networking and communications needs.

Nationwide network

We have one of the largest fiber footprints in the U.S., capable of supporting 2.5Gbps (OC-48), 10Gbps (OC-192) and 40Gbps (OC-768) transmission rates.

Financing

We offer multiple financing options for your convenience.

ADTRAN

ADTRAN simplifies the complexities of networking with products, solutions and services in the cloud era to transform the way we connect, work and live. We remove the traditional constraints of networking to enable our customers and partners to deliver automated, scalable and secure networks that connect the world.

The ADTRAN advantage:

Simplified networks: The ADTRAN Operating System (AOS) across routing, switching and IP Business gateways simplifies operations.

Lower TCO: Optimal space utilization, low energy and cooling cost and a common platform drive cost of installing, operating, and managing ADTRAN networks down.

Why Lumen?

We partner with best-in-class equipment providers for customized business voice and data solutions, and employ highly skilled engineers who are trained to operate our state-of-the-art equipment to provide you with an exceptional standard of service for your business voice and data needs.
