

# Lumen® Dedicated Internet Extension

Extend your data reach by connecting in Latin America, Europe and Asia Pacific

The complexity of international carrier negotiation, contracting, management and currency hurdles can be challenging for global organizations to manage. With Lumen Dedicated Internet Extension, Lumen partners globally with third-party Internet Service Providers (ISPs) to resell their internet solutions. Coordinated through Lumen and delivered locally from partner third-party ISPs, Lumen Dedicated Internet Extension enables a simplified buying and operational experience with Lumen as a single-source network provider.

## Global coverage

Multinational corporations require robust and reliable connectivity to transfer data between offices, employees, and customers worldwide. To provide secure data transfer, supply chain efficiency and business continuity, robust global connectivity is key.

Lumen Dedicated Internet Extension is available in 148 countries between EMEA, LATAM, and APAC with bandwidth options up to 100Gbps in specific regions to support your global growth.

## Simplified purchasing process

Evaluating multiple vendors and negotiating contracts saps critical time and resources from IT teams. Lumen partners with many vendors that span a wide variety of use cases. Based on your priorities, Lumen recommends the best vendor choice in the regions you need connectivity.

## Single vendor management

With Lumen Dedicated Internet Extension, you can streamline your global connectivity strategy in a way that supports your business growth. With one easy-to-use portal, billing and management are consolidated and troubleshooting becomes simple with a single support team. Lumen is your partner in global connectivity.

“Network transformation is key to organizations’ ability to leverage cloud resources and improve network agility, resulting in higher customer satisfaction, increased revenue, and improved operational efficiency.”

– 2024 IDC Research

## Why Lumen?

Lumen Internet Services are recognized by global enterprises for scalability, availability, and reliability. We deliver a network experience that is easy to set up, simple to purchase and quick to install. With one of the most highly peered global IP networks, Lumen provides the high-speed, low latency connectivity your organization needs to excel in today’s AI-driven global economy.
