MSS proposed services are EIS-specific offerings provided by Lumen and our Partners. Because they are not commercial offerings, there are no commercial list prices available. These Government-specific services are shown with "t" in the "No List Price" column and with 0% discount.

- Service Related Equipment – Section **Error! Reference source not found.**

SREs presented a challenge because Cisco and Adtran do not maintain public interactive websites with their product lists and OLPs. Lumen provides a third party website which quotes Cisco OLPs by entering the part number. For Adtran, we provide a website containing Adtran part numbers and OLPs. Directions to find the OLPs for all of the proposed SRE is in the table (**Figure 3-2**), below. Cisco OLPs are always available from our Partner World Wide Technology and all OLPs can be obtained from the Lumen Help Desk or the Lumen Account Teams after award. Also, the Government has additional resources that enables it to verify OLPs.
