

Lumen® DDoS Mitigation Offer for Midsized Businesses

Proactively protect your Lumen® Dedicated Internet Access with our multi-layer DDoS Mitigation solution

Affordable, fully automated, on-demand DDoS mitigation for midsize businesses with clean traffic return speeds up to 10 Gbps.

The service utilizes our threat intelligence team, Black Lotus Labs. This team consists of data scientists, reverse engineers, security engineers, and threat analysts who focus on detecting, tracking, and disrupting threats globally. Black Lotus Labs leverages unmatched visibility provided by the Lumen Internet backbone, one of the most extensive and deeply interconnected networks, to identify infrastructure utilized by bad actors for conducting DDoS attacks.

Affordable

- Flat monthly service rate per port as low as \$275 for 100 Mbps, includes flow-based monitoring.
- Unlimited mitigation for most common DDoS attacks with no overage charges.

Simple

- Fully automated, on-demand mitigation to streamline DDoS attack detection and response.
- Decimates malicious traffic and returns cleansed traffic on the protected Internet access circuit.

Fast and effective

- Blocks threats immediately; atypical, advanced scrubbing algorithm can take a minute from detection to blocking.
- Mitigation uses advanced scrubbing center technology with Black Lotus Labs® threat intelligence.

Promotion highlights

- Historically low MRC and no NRC
- 12, 24, 36-month terms
- On-Demand Mitigation with Auto-Mitigation only service
- Up to 10 Gbps clean traffic return for Lumen DIA with either on-net or off-net transport circuit
- Includes Flow-Based Monitoring (FBM) and Lumen network-based scrubbing centers

Offer pricing*

Port Speed	Clean return bandwidth	MRC
1 Gbps	100 Mbps	\$275
1 Gbps	200 Mbps	\$350
1 Gbps	500 Mbps	\$450
1 Gbps	1 Gbps	\$550
10 Gbps	1 Gbps	\$800
10 Gbps	2 Gbps	\$1,000
10 Gbps	3 Gbps	\$1,500
10 Gbps	4 Gbps	\$2,000
10 Gbps	5 Gbps	\$2,500
10 Gbps	10 Gbps	\$4,000

Common use cases

- Operate in frequently targeted industries, such as Ecommerce, Finance, Gaming, Healthcare or Media.
- Ensuring access to critical cloud applications (e.g., Google, Microsoft 365, Salesforce)
- Businesses highly depend on VoIP services for their revenue generation or operations.
- Have limited internal cyber security resources or expertise to handle DDoS attacks on their own.
- Value a trusted partner with proven experience and capabilities in DDOS mitigation.

*Listed monthly service rate is per port for On-Demand mitigation, auto-mitigation service with a 12-month minimum agreement and requires new or existing Lumen DIA service. Rate is available to eligible U.S. business customers (excluding public sector organizations) with less than 3000 employees purchasing new service at one location or protecting existing Lumen service and is based on total clean traffic return bandwidth tier, flow-based monitoring and internet port. Clean traffic return must match the internet bandwidth. Offer excludes DIA transport, taxes, and fees. Early termination fee will apply as set forth in customer's agreement. Credit approval and deposit may be required. Offer may not be combined with other offers. Additional restrictions, terms and conditions apply.
