NASPO ValuePoint Cloud Solutions

Master Service Agreement #AR2474

An easy and convenient way for state, local and education (SLED) agencies to procure Cloud Solutions from Lumen.

From improving operational efficiency and agility, to better managing threats and risk, the future of digital government depends on IT agency's ability to modernize network services.

As a trusted provider to the public sector community, Lumen offers cost-effective Edge Compute, cloud, security and professional services. We aim to provide you with reliable connections.

One platform, many options

Whether you need elastic infrastructure, cloud-native application services, orchestration or managed solutions — unify it all on our secure platform.

High availability and performance

Our cloud infrastructure is optimized across the stack, from premium hardware to custom performance-enhancing technologies.

Complete cloud solutions for state, local and education (SLED) agencies

The NASPO ValuePoint Cloud Solutions contract includes cloud, hybrid cloud and managed cloud solutions. Lumen provides complete end-to-end cloud solutions by offering integrated solutions; Edge Compute, Adaptive Virtual services, Big Data, Smart Solutions, cloud connectivity, infrastructure and professional services for agencies nationwide.

Procurement is easy and convenient when ordering via NASPO ValuePoint and working directly with Lumen's experienced and knowledgeable staff. Our Program Support team helps customers meet stringent government standards while helping reduce procurement costs and providing an expedient acquisition route for products. What's more, our solution consultants stand ready to provide the design, configuration, and training services your agency requires.
