Lumen® NaaS Port

Access to fast, flexible, and secure on-demand connectivity for the digital age.

As technology continues to reshape industries, companies need to stay agile and efficient to remain competitive. The Lumen NaaS Port provides a flexible and scalable solution to the complexities of managing network resources. Through a single multi-service port, organizations can unlock instant access to on-demand connectivity services and integrated security solutions. With pay-as-you-go pricing and agile bandwidth, organizations are empowered with optimized operational efficiency and a future-proof network infrastructure that adapts to changing needs.

Instant connectivity

The Lumen NaaS Port enables organizations to activate services in minutes. This rapid deployment ensures companies can quickly establish new private or public connections without the need for physical intervention, significantly reducing downtime. Additionally, the NaaS Port supports utilization monitoring to ensure optimal performance of your connectivity services.

Flexible and effective scalability

The Lumen NaaS Port enables real-time bandwidth allocation, allowing businesses to adjust based on their needs. Partnered with a pay-per-use model, organizations are positioned to quickly adapt and maximize the value of their network resources.

Future-proof network infrastructure

With the ability to be activated at the customer's premises or datacenter locations the Lumen NaaS Port enables connectivity wherever you need it. With integrated cybersecurity and robust network infrastructure organizations are positioned to navigate the technological landscape while protecting against service interruptions.

"Lumen plays an important role in helping content providers move video content to AWS. For example, Fox Sports was able to bring its live sports content to AWS by using an on-demand connection aligned with Lumen's Network-as-a-Service platform."

– Evan Statton
Sr. Principal Architect in M&E, AWS

LUMEN®
TECHNOLOGIES

Features and Specs

Port speed
- 1 GB
- 10GB

Connectivity to:
- Internet On-Demand
  - DDoS Essentials
  - Lumen Defender
- Ethernet On-Demand

Getting started
- Sign up for a free Lumen NaaS Manager account or log in to your existing NaaS Manager account
- Order a port for your location, it will be available in 3-5 days
- When your port is ready, log into NaaS Manager to quickly connect and adjust bandwidth as needed

Why Lumen?

Lumen connects the world. We are dedicated to furthering human progress through technology by connecting people, data, and applications – quickly, securely, and effortlessly. Everything we do at Lumen takes advantage of our network strength. From metro connectivity to long-haul data transport to our edge cloud, security, and manager service capabilities, we meet our customers' needs today and as they build for tomorrow.
